

PREVENTION OF MASS STARVATION - 1944

The Executive Board of the National Federation of Temple Sisterhoods observes with pleasure the unanimous adoption by the Senate of Resolution No. 100, and the similar adoption by the House of Representatives of Resolution No. 221. These resolutions call upon the Secretary of State, in cooperation with Sweden, Switzerland, Britain, and other governments concerned, to extend the Greece experiment to stave off, in Allied-occupied countries, mass starvation particularly of the children and nursing mothers.

We urge upon President Roosevelt and Mr. Cordell Hull immediate effort in accordance with these resolutions of the Congress of the United States, to undertake the shipment of food into France, Belgium, the Netherlands, Norway, Poland, Greece, Czechoslovakia, and Yugoslavia.
