

## National Association of Temple Educators - 1979

---

Recognizing that the National Association of Temple Educators is an integral part of synagogue life and of inestimable help not only to the National Federation of Temple Sisterhoods and the Union of American Hebrew Congregations but also to the entire Reform movement, the National Federation of Temple Sisterhoods notes with pleasure NATE's 25th anniversary of distinguished service to the cause of furthering education and the survival of Judaism and looks forward to its continuing strength as well as growth in the years to come.
